My First Research Project

MY FIRST RESEARCH PROJECTS

A series of reports for your primary students. These printable reports serve as a foundation for introducing the research process. Each report activates prior knowledge, leads the kids in creating questions, requires them to locate facts, and even has them creating a super simple bibliography page.

[My First Research Project: Spiders](#)

My First Research Project

INTERACTIVE RESEARCH PROJECTS

These aren't your mama's research reports!! Engage your older students in a research project that they will be proud and excited to bring home. These projects require students to put their research skills to the test, but the final project is similar to an interactive notebook. My kids have LOVED them!

RESEARCH TASK CARDS

These 20 research task cards presents a SINGLE fact about each month. The fact is followed up with 3 research questions pertinent to that fact. Check out the bundle for links to each month.

WILD RESEARCH

The Library Patch has tons of great animal research reports for older kids too!!

[An African Animal Research Safari](#)

[A Polar Animal Research Expedition](#)

[12 Steps to a Written Animal Report](#)

[Battle of the Beasts: Dinosaur Research](#)

[Animal Fact File Research Report](#)

RESEARCH SHORTS

Don't have time for an extensive research report. Try these short ones!
